Subject: Greka Followup Information

**Greg Haas**  
**Office of Congresswoman Lois Capps**

Greg -

In followup to our teleconference calls held earlier this week, we committed to provide you with the following information:

- List of previous Greka releases
- List of Greka facilities planned for inspection by our oil program
- Information on ownership of Greka

#### **List of previous Greka releases**

I have hard copy printouts of spill reports for 2006, 2007, and 2008 (year to date) which I will send to you today via Fed Ex. These hard copies total approximately 50 pages. In addition, I am attaching to this message 2005 spill data in electronic format in an XL Spreadsheet format.

#### **List of Greka facilities planned for inspection by our oil program**

Our oil program will be inspecting the following Greka leases, and may include some additional

facilities/leases which are not known at this time:

1. Davis Tank Battery
2. Chamberlin Lease
3. Morganti Casmalia Lease
4. Battles Lease (Santa Maria)

**Information on ownership of Greka - parent company, U.S. or overseas, etc.**

We are still in the process of determining the ownership structure for Greka. We believe that Greka Oil & Gas, Inc, (a Colorado corporation with principle offices located in Santa Maria, California) is the entity that operates the well fields down in Santa Barbara County that were the source of the most recent spills. Also, it appears that Greka Energy Corporation is the parent corporation of Greka Oil and Gas.

Please note that we are still looking into the ownership issuse in more detail, and as we learn new information, a clearer picture of the ownership structure may emerge.

Please give me a call if you have any questions or need any additional information.

Regards,

Brent Maier
